**** Take inventory of your own home and become as many customer points yourself as possible. ****

Sample Approaches to others:

Hi _____ do you have a minute? You know my situation. I am (Insert your situation, i.e., “I am working full time.” “I am a full time student.” “I am retired.” “I own my own company.”) _____ .

I just found a way to... (Insert your why, i.e., “To supplement my job income or retirement.” “To pay off student loans.” “To better support my family without having to get another job.”)

The purpose of my call is to see if you would support me in my new business and become my personal customer.

Great, in order for me to get promoted I need 10 customers. I work with just about every cell phone company, Dish TV, regular home phone service and health and wellness. I need you to try out one or two items from my personal web page. Can you get on the internet now?

Here is my website www.fhtm.us/_____

Ok, let’s go to my website together and order something.

THANK YOU!!!!!!!

(Make sure to send them a thank you card)

Approach Tips

Offer to do them a favor such as baby sit their kids, wash their car or mow their lawn.

“If you support me and be my customer, I’ll wash your car”, or, “I’ll baby-sit your kids once a month.”

General Customer Gathering Tips

Build your business with urgency.

Sell the FAVOR, not the RATE or PRICE. This is network marketing, an industry in which relationships keep customers.

Sell YOU, not the product or service. The key is you. Ask for referrals.

Get new accounts. These partner companies are not interested in paying for a customer they already have. Talk to your trainer about how to get credit for current customers.

GENERAL TIPS

You should spend some time becoming familiar with your Web Page so you will feel comfortable when you invite a customer to take a look. The best way to do this is to replace as many of the products you are currently using with products from your own business and order them via your site.

It is also important to note that until a customer enters credit card or payment information and agrees to the process for the service they are looking at, the order will not be completed. This gives someone the opportunity to check out the plans and prices and to learn more about each service before they order.

Gather loyal customers one time and you can focus on building your team!!
